

## PalPharmaTrac™

### Overhead Support Systems for PalPharmaVac™ Units

Maximise operational space and efficiency with PalPharmaTrac™ overhead support systems. Designed for clean room environments, these systems offer precise movement and easy maintenance, ensuring smooth handling of materials up to 2000kg.

#### Product information

##### The Manual Handling Disadvantage:

- ✓ Workforce fatigue and injuries
- ✓ Reduced throughput
- ✓ Risk of damage to product

##### The PalPharma Advantage:

- ✓ Single operator usage
- ✓ Increased throughput
- ✓ Workforce and product protection
- ✓ Operational cost reduction
- ✓ Increased productivity and profitability

## Swing Jib

The lifting system runs up and down the swing arm which moves side to side giving 270° coverage and up to 350kg working load.

An inverted or articulated jib can be offered which can also offer 180°/360° coverage.

- ✓ Can be hung from existing steelwork, wall mounted, ceiling mounted or as a mobile base option.
- ✓ 180° or full 360° coverage.
- ✓ Lifting products up to 350kg (772lb)

## Articulated Jib

All articulated arm jibs can be suspended from vertical steel columns or from existing stanchions. In some cases these can also be fitted to a building wall and offered as a mobile version.

- ✓ Process operations that require a greater working area reach
- ✓ Facilities where either space or headroom is at a premium
- ✓ Lifting products up to 250kg (551lb)
